

## UoC library contracts signed

The construction of the "Stelios Ioannou" Information Centre-Library at the University of Cyprus came one step closer after this week's signing of the €8m contract.

"The contract was signed between the University of Cyprus and the companies of J&P and J&P Avax Joint Venture...It marks the beginning of the construction of a very important project," the UoC said in a statement.

University board chair-

man Haris Charalambous thanked the Ioannou family for their generous donation saying it paves the way for the 'architectural jewel' of the campus.

University rector Con-

stantinos Christofides described the new building as the 'roof of knowledge' and a 'critical junction' of the 10,000 strong student campus of the future on issues of information.

"Considering society's prevailing disappointment these days, a project of this kind turns a new page sending out a message of hope for our country," he added. On behalf of the family, Dakis Ioannou said that he was delighted the University had responded so warmly to the donation by his late mother, Elli.

Picture shows Christofides, Ioannou and Constantinos Mitzalis who signed the contract on behalf of the companies.
